Index to Volume 34

Index of Issues: January, pp. 1-103; February, pp. 105-208; March, pp. 209-297; April, pp. 299-366; May, pp. 367-436; June, pp. 437-526; July, pp. 527-639; August, pp. 641-738; September, pp. 739-845; October, pp. 847-957; November, pp. 959-1059; December, pp. 1061-1169

Abdominoperineal excision, local recurrence after, rectal carcinoma, 317

Abdominoperineal resection, gracilis muscles for sphincteric construction, 1085

Abstracts, 99, 203, 291, 356, 428, 517, 632, 731, 839, 952, 1053, 1147, P1(April)

Acquired immunodeficiency syndrome

anorectal surgery in, 299 histoplasmosis, colonic, 185

squamous cell carcinoma of anus and, 336

Adenocarcinoma

colon

locally advanced, Dexon Mesh use in abdominal partitioning, 833

neoplasm presenting as, 622

polyamines in tissues of, 167

cytometric DNA ploidy patterns, histopathologic features and, 810

liver resection for, morbidity and survival, 899 patients less than 40 years of age, 343

polyps with, lymph node metastases, 323 de novo, with lymph node metastases, colon, 275

intestinal tract, Crohn's disease and, 174

invasive, colorectal polyps with, lymph node metastases, 323

rectal, predictors of recurrence, 798

Adenoma-carcinoma sequence, flat adenoma, clinocopathologic features of, 981

Adrenaline chloride, treatment, ulcerative colitis, 1139

Advancement flaps, rectovaginal fistula, Crohn's disease patients, 641

Aging, colorectal carcinoma and, 343

AIDS, see Acquired immunodeficiency syndrome; Human immunodeficiency virus

Alcohol, withdrawal, disturbed colonic transit time, 111 Alpha sympathetic blockade, postoperative urinary reten-

tion and, 1113 Anal anastomosis

> colonic J-pouch, supralevator pelvic exenteration, 1131

ileal pouch

carcinoma and, 805

Crohn's colitis, consequences for, 653

delayed, 755

indeterminate colitis and, 857

pouchitis, 685

without ileostomy, 870

Anal canal

carcinoma, letter, 1051

development of, 262

epidermoid carcinoma, SCC as marker of, 126

squamous cell cancer

combined chemo-radiation therapy, 675

therapy of, 482

Anal encirclement

fecal incontinence, 478

polypropylene mesh, rectal prolapse and incontinence, 905

Anal fissure, chronic, anoplasty treatment, 198

Anal fistula

complex, simplified seton management, 1135

complicated, sleeve advancement anorectoplasty for. 1032

Crohn's disease, 378

Anal intramuscular glands, anal sinus and, anatomic nature and surgical significance, 156

Anal manometry, see Manometry

Anal pain, chronic idiopathic, manometry and radiology, 690

Anal pressure

ileoanal anastomosis without rectal cuff, 8

measurements, 72

resting, patients with rectocele, 704

tonometry, 396

Anal sinus, anal intramuscular glands and, anatomic nature and surgical significance, 156

Anal sphincter

complicated fistula, sleeve advancement anorectoplasty for, 1032

external

development of muscles, 262

EMG activity, spinal patients, 409 investigation of anal pain, 690

paradoxical contraction, 769

function, after transabdominal repair of rectal pro-

internal, sclerosis, letter, 288

internal relaxation, ileoanal anastomosis without rectal cuff, 8

neurophysiologic assessment, 606

organ of continence and incontinence, letter, 514

pressure, measurements, 72

reconstruction, 739

fecal incontinence, 744 obstetric injury, 1061

repair, endometriosis in episiotomy scar with, 713 tonometry, 396

Anal stenosis, chronic, anoplasty treatment, 198

Anal transition zone, excision of, coloanal anastomosis with reservoir, 967

Anastomotic recurrence, Crohn's disease, 909

Animal model, colon cancer metastasis, enhancing metastasizing ability, 458

Anoplasty, chronic anal fissure, 198

Anorectal abscess, treatment, primary fistulectomy and,

Anorectal angle

anterior sphincteroplasty, fecal incontinence, 305

measurement, videoproctography, 1010

measuring of, defecography, 51

Anorectal band, anatomic nature and surgical significance, 156

Anorectal inhibitory reflex, pressure measurements, 72 Anorectal physiology

noninvasive intra-anal electromyography, 69

Anorectoplasty, sleeve advancement, complicated anorectal/vaginal fistula, 1032

Antibiotics, prophylactic, colorectal surgery wound infection, 151

Anti-cancer drugs, abdominal desmoid tumor, with Gardner's syndrome, 822

Anti-CD3 antibody, heteroconjugates, colon tumor cell lysis and, 140

Appendectomy, colonoscopic, 83

Appendicitis, acute abdomen, cyclic neutropenia and, 1125

Appendix, villous adenoma, cecocolic intussusception in, 85

Arterial portography, CT during, colorectal cancer metastases to liver, 37

B

Bacteria, anal wound, open hemorrhoidectomy, 664 Behavioral medicine, chronic constipation, paradoxical anal sphincter contraction, 769

Bile duct, cancer, Lynch syndrome II kindred, 891 Biofeedback

anal pain, 690

anorectal physiology testing, 464

Blood flow, obstructed bowel, 229

Book reviews, 201, 353, 630, 837, 1145

Bowel

anastomosis, handsewn or stapled, 442, 625 obstruction, vascular responsiveness in, 229

welding, sutureless closure of colotomy, 1079

Bowel, large

diverticular disease, trends in newly developed country, 498

flat adenoma, DNA ploidy pattern of, 696

Hartmann's reconstruction technique, 1141

obstruction

colonic lavage and primary anastomosis, 527 optical urethrotome knife for, 717

percutaneous decompression and irrigation for, 973

Bowel, small

obstruction

acquired and congenital diverticulosis, 941 after colon resection, 367

ileal pouch-anal anastomosis procedure, 563

Brachytherapy, hyperplastic polyposis, disappearance after resection of rectal cancer, 829

Brucella melitensis, colitis, 194

C

Calcium, concentration, increased, colon mucosal lines and, 552

Cancer

see also Carcinoma; and the specific type or site colon

laparotomy, radioimmunoguided surgery in, 217 New Zealand, 56

colorectal, urban medical center, 64

rectal

abdominoperineal excision and anterior resection for, 317

New Zealand, 56

Cancer family syndrome, flat adenoma, 981

Cancer screening, colorectal, asymptomatic patients with family history, 763

Carcinoembryonic antigen

clinical significance, large bowel cancers, 921 colon and rectal cancer, 506

immunoperoxidase staining of, restaging of colorectal cancer, 917

liver function tests and, recurrent colorectal cancer, 794

Carcinoid tumor, rectal, DNA ploidy pattern in, 31 Carcinoma

see also Cancer; and the specific types of carcinoma colorectal, nuclear shape as prognostic discriminant, 249

epidermoid, anal canal, SCC as marker of, 126 squamous cell, anal, HIV infection and, 336

Catheter, percutaneous decompression and irrigation, large bowel obstruction, 973

CEA, see Carcinoembryonic antigen

Cell proliferation, rectal stump, ulcerative colitis patients after ileorectal anastomosis, 385

Chemo-radiation therapy, salvage, squamous cell carcinoma of anal canal, 675

Chemotherapy

abdominal desmoid tumor, with Gardner's syndrome, 822

cytotoxic, desmoid tumor in familial adenomatous polyposis, 1090

5-fluorouracil, experimental colon cancer, 658 intraperitoneal, after curative resection for colon car-

cinoma, 723 Chloride, balance, after ileoanal anastomosis, 115 Cholangitis, primary sclerosing, gallbladder carcinoma

and, 827 Cinedefecography, anal sphincter, 606

Cirrhosis, bleeding from peristomal varices, 1073

Classic article, David Howard Patey, 1899–1977, 1022 Clinicopathologic staging, prognostic factors, colorectal cancer, 546

Clostridium difficile, pseudomembranous colitis, 244 Colectomy

constipation, 851

ileal pouch-anal anastomosis, delayed, 755 peristomal varices, bleeding from, 1073 subtotal, ulcerative colitis, 1005

Colitis

AIDS, 185

antibiotic, Clostridium difficile, 244

Brucella as cause of, 194

colectomy and ileostomy for, rectum after, 931 diversion, treatment by short-chain fatty acids, 861 indeterminate, pouch-anal anastomosis and, 857 pseudomembranous, *Clostridium difficile*, 244 ulcerative

adrenaline chloride in, 1139

chronic, ileal pouch-anal anastomosis, 805 chronic, pouch-anal anastomosis and, 857 compliance of ileoanal pouches, 404

double and triple loop pouch comparison, 17 dysplasia and DNA aneuploidy in pelvic pouch, 280 gallbladder carcinoma and, 827

ileoanal anastomosis, water and electrolyte balance after, 115

left-sided, right-sided coloanal anastomosis for, 618 mucosal, double-stapled ileal reservoir, 487

mucosal cell proliferation after ileorectal anastomosis, 385

mucosal dysplasia and DNA content, 566 peptide YY and enteroglucagon, 119 rectovaginal fistulas in, surgery, 925

subtotal colectomy for, 1005

Coloanal anastomosis

functional assessment of, 967

radiation injury, surgical management of, 865

right-sided, treatment of left-sided ulcerative colitis, 618

Colon

AIDS histoplasmosis, 185

anastomosis

experimental laser, short-term results, 1079

healing of, 557

Brucella melitensis as cause of colitis, 194

Crohn's disease, anastomotic recurrence in, 909

incarceration, inguinal hernia, 191

lipoma, laparoscopic removal, 1027

mini-perforation, laparotomy and, 132

motility study, patients at risk for diverticular disease, 339

neoplasm

metastases of gastric adenocarcinoma presenting as,

622

obstructing, 759 resection, survival after, 401

proctocolectomy, increase in peptide YY and entero-

glucagon, 119 pseudo-obstruction, drug-induced, 347

resection

aseptic, invagination technique, 594

emergency, colonic lavage and primary anastomosis

laparoscopic-assisted right hemicolectomy, 1030

transit time, alcohol withdrawal and, 111

tumor, anti-tumor × anti-lymphocyte heteroconjugates and, 140

Colon cancer

curative resection, peritoneal seeding after, 723

en bloc resection for, 780

experimental, intraperitoneal chemotherapy in, 658

flat adenoma, DNA ploidy pattern of, 696

growth, increased calcium concentration and, 552

human papillomavirus type-related DNA and c-myc oncogene alterations in, 469

Lynch syndrome II kindred, 891

metastasis, animal model, 458

resection for, small bowel obstruction after, 367

screening, first-degree relatives, 1120

tumor markers in, 506

Colonic inertia, colectomy for, 851

Colonic lavage, intraoperative, primary anastomosis and, nonelective colon resection, 527

Colonic metastasis, solitary, 17 years after nephrectomy, 709

Colonic motility, electric and manometric description,

Colonic mucosal lines, growth, calcium effects, 552

Colonoscopy analysis of findings, rectal bleeding, 391

appendectomy, 83

Ogilvie's syndrome, 720

primary de novo adenocarcinoma, colon, 275

radiology, first-degree relatives, 1120

screening in asymptomatic patients with family history,

snare electrocoagulation, colorectal villous adenomas,

Coloproctology, noninvasive intra-anal electromyography, 69 Colorectal adenocarcinoma

cytometric DNA ploidy patterns, histopathologic features and, 810

liver resection for, morbidity and survival, 899

Colorectal adenoma, mucosal background, lectin staining, polyposis patients, 679

Colorectal cancer

advanced, ras p21 overexpression, 1097

clinical significance of tumor markers in, 921

colonic prostaglandins in, 572

experimental, anastomotic suture materials and, 987

hereditary non-polyposis, international collaborative group, 424

metachronous, young patients, 790

mucosal background, lectin staining, polyposis patients, 679

obstructing, 759

patients over 80 years of age, 896

prognostic factors in, 546

recurrent, CEA and liver enzymes in, 794

restaging of, 917

screening in asymptomatic patients with family history, 763

tumor markers in, 506

Colorectal mucosa, background, lectin staining, poly-

posis patients, 679 Coloshield, pouch-anal anastomosis, without diverting

ileostomy, 993

Colostomy abdominal, pyloric autotransplantation at, 874

avoiding soiling, after Hartmann's procedure, 1038

continent, one-piece disposable device, 886

Hartmann's reconstruction technique, 1141

incarcerated bowel, sugar in reduction of, 416

loop, historic review, 1014

primary epithelial apposition in, classic article, 1022

rodless end-loop stomas, 999

Colovaginal fistula, diverticular disease and, 1043

Compliance

rectal, after anterior resection, 329

stool consistence, rectal and neorectal emptying, 1

Computed tomography

during arterial portography, colorectal cancer metastases to liver, 37

negative, rectal carcinoma, 748

rectocele, males, 964
